PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 2+ years of hands-on experience building responsive, high-performance web applications across real estate, e-commerce, education, and hospitality verticals. Proficient in React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS, with proven ability to translate Figma/design mockups into pixel-perfect, cross-browser-compatible interfaces. Experienced in REST API integration, performance optimization, Git workflows, and modern build tools (Webpack/Vite). Complementary full-stack and AI automation skills enable seamless collaboration across the entire development lifecycle.

TECHNICAL SKILLS

Core Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript (familiar)

Frameworks & Libraries: React.js, Next.js (familiar), Angular (familiar)

Styling: Tailwind CSS, Bootstrap, Sass/SCSS, CSS Animations, Responsive Design

Build Tools: Vite, Webpack, npm, yarn

Version Control: Git, GitHub, GitLab, GitHub Actions, CI/CD

CMS & UI Builders: WordPress, Elementor, WooCommerce, Houzez, OceanWP

API Integration: REST APIs, Meta Graph API, GA4 API, Google Ads API, Webhooks

Testing & Debugging: Browser DevTools, Cross-Browser Testing, Performance Profiling

SEO & Performance: On-Page SEO, Technical SEO, Core Web Vitals, Yoast SEO, Lighthouse

Backend (Supporting): Node.js, PHP, Express.js, MySQL, Supabase

AI & Automation: Claude API, GPT API, n8n, Zapier, LangChain, Prompt Engineering

Cloud & DevOps: AWS (EC2, RDS, Route 53), Docker Compose, Hostinger, LiteSpeed, SSL/DNS

PROFESSIONAL EXPERIENCE

NARA Desert Escape — Dubai, UAE

Digital System Developer (Frontend & Automation Lead) | Dec 2024 – Present

- Built internal React.js web applications replacing manual operational workflows across multiple hospitality venues — full component architecture, state management, and responsive UI.
- Designed and developed pixel-perfect, mobile-responsive interfaces from scratch using React, Tailwind CSS, and custom CSS — coordinating directly with stakeholders on UX requirements.
- Integrated REST APIs (Meta Graph API, GA4, Google Ads, Airtable, Notion) into frontend dashboards and reporting interfaces.
- Developed AI-powered frontend tools leveraging Claude API and GPT API — embedding LLM functionality into operational dashboards.

- Implemented multi-step automation workflows in n8n and Zapier covering competitor intelligence, marketing reporting, social media distribution, and staffing systems.
- Maintained full technical documentation for all frontend systems, component libraries, and integration flows.

DKV International Real Estate LLC & DKV General Trading LLC — Dubai, UAE

Full Stack Developer & IT Administrator | Mar 2024 – Dec 2024

- Built dkvrealstate.com from scratch using WordPress + Houzez — custom UI/UX components, dynamic property listing modules, advanced search filters, and interactive maps.
- Developed dkvgeneraltrading.com as a full WooCommerce e-commerce platform — custom product pages, payment gateway integration, shipping calculators, and inventory management.
- SEO-optimised 300+ real estate listings and 500+ e-commerce product listings — achieving green-light Yoast compliance and improved organic rankings across both platforms.
- Implemented n8n automation workflows for lead tracking, internal communications, and CRM-style data management integrated with Google Sheets.
- Designed prompt-driven content workflows for automated property description generation and on-page SEO across 300+ listings using Claude API.
- Administered Microsoft 365, IT infrastructure, Hostinger hosting, LiteSpeed server, SSL, DNS, backups, and uptime monitoring.

QuantumTech IT Solution — Bengaluru, India

Web Development Intern | May 2024 – Jul 2024

- Developed responsive websites and landing pages for clients using HTML, CSS, and JavaScript.
- Assisted in REST API backend integration, testing, and debugging across client projects.
- Provided UI bug fixes and front-end implementation support for existing client websites.

FEATURED PROJECTS

Web & Application Development

- **Custom Real Estate CRM — DKV** *[React, Node.js, Supabase, RLS]*
Internal CRM for DKV International built from scratch — lead management, automated communications, client interaction tracking, and secure row-level security (RLS) policies. Full React frontend with dynamic tables and filter views.
- **dkvrealstate.com** *[WordPress, Houzez, PHP, MySQL, Yoast SEO]*
Complete real estate platform — custom UI/UX, dynamic property listings, advanced search filters, interactive maps, and 300+ SEO-optimised listing pages achieving top organic rankings.
- **dkvgeneraltrading.com** *[WordPress, WooCommerce, OceanWP, PHP]*
Full e-commerce platform — payment gateway integration, shipping calculators, inventory management, and 500+ SEO-optimised product listings.
- **raidfendtechnologies.com** *[WordPress, Custom PHP Plugin, MySQL]*
Technology company website featuring a custom-built WordPress plugin — popup modal contact form, MySQL database storage, and automated email notifications.
- **allianceedu.com & 800itcare.com** *[WordPress, Elementor, PHP]*
Responsive multi-page websites for education consultancy and IT services — service showcasing, lead capture forms, SEO-ready structure, and performance optimisation.

AI & Automation Systems

- **NARA Pulse Manning App** *[React, Node.js, MySQL]*
Internal staffing and operational planning application — React frontend with real-time rostering views, replacing manual WhatsApp and spreadsheet workflows across multiple NARA venues.
- **NARA AssetTracker** *[React, Node.js, MySQL]*
Internal asset management system with React frontend — hardware, software, and SIM tracking with automated inventory monitoring and reporting dashboard.
- **SEO Content Automation — DKV** *[n8n, Claude API, WordPress, Yoast]*
Prompt-driven frontend content generation pipeline — automated property listing descriptions and on-page SEO optimisation across 300+ listings via Claude API integration.
- **Competitor Price Monitor** *[n8n, Google Sheets, Gmail, JavaScript]*

Dual-workflow n8n system scraping 14 products across 3 competitors daily — automatic price change detection (UP/DOWN), structured Google Sheet updates, and HTML email alerts.

- **Monthly Marketing Report Automation** *[Zapier, GA4 API, Meta Graph API, Google Ads API, Notion]*
Fully automated monthly reporting pipeline — pulls GA4, Meta Ads, Google Ads, and Airtable data into structured Notion pages with duplicate prevention and data validation.

EDUCATION

Bangalore University, India — India

Bachelor of Computer Applications (BCA) | Jan 2021 – Oct 2024

KRIST RAJ HSS, India — India

+2 Computer Science | Jun 2019 – Jun 2021

TRAINING & CERTIFICATIONS

Intellipaat — Bengaluru, India —

Cloud & DevOps Training Program | Oct 2024 – Present

- AWS: EC2, RDS, IAM, Route 53, CloudFormation, Docker Compose, CI/CD via GitHub Actions.
- Exposure to GCP, Azure, and Linux system administration fundamentals.

Certifications: AWS Course Certification Training · AWS Technical Essentials — Intellipaat
